

Passenger Lift Car Finishes

These designs are indicative of our standard ranges. However, it is possible to combine different features from each of the suggested designs, or have a completely bespoke design of your own choosing.

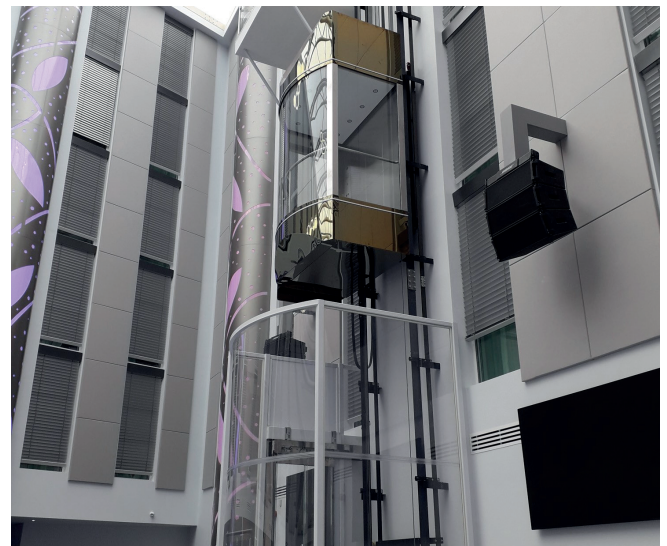

1 Glass Lift and Structure

- Glass walls for maximum visibility
- Self-supporting powder coated steel lift structures
- Glass shaft panels
- Bespoke corporate brand colour inclusion
- LED spotlights in the ceiling panel
- Grey tiled floor to complement the overall design

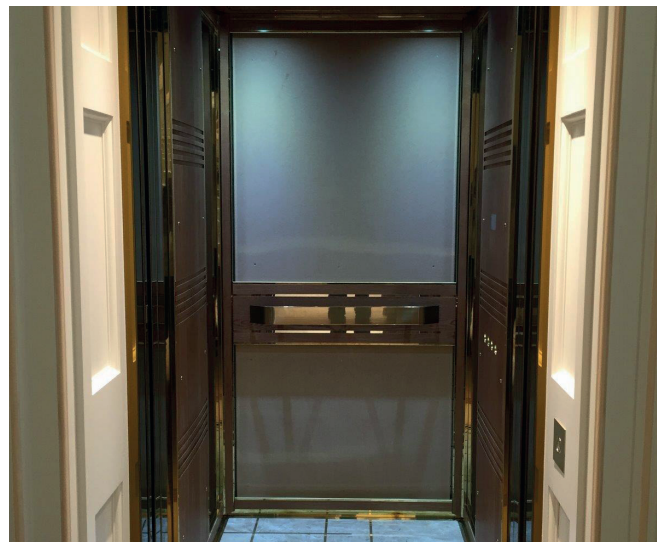

2 Panoramic Glass Lift Car

- Panoramic glass walls for maximum visibility
- Gold polished canopy top and bottom
- Bespoke low LED ceiling lighting
- LED exterior lighting around the lift circumference
- Marble floor
- Many interior wall colours and finishes available

3 Light Reflecting Acrylics

- Landing doors and frames in polished gold stainless steel
- Marble flooring with gold inset floor pattern
- American oak décor with design fret work to side walls
- LED back lighting through translucent marble effect acrylic back wall
- Gold mirrored car doors, hand rails, and front return wall
- Laser cut inset floor pattern to match bespoke car ceiling light design

4 Luxury Fittings Passenger Lift

- Car lift lined in cream chamois leather
- Brushed bronze stainless steel architraves
- Mirrored back wall with LED back lighting
- Suspended ceiling fitted with variable mood lighting
- Neutral flooring tiles to match the landing reception area
- Brushed bronze stainless steel hand rails

5 Bespoke Specification Passenger Lift

- Mild steel landing doors and frames
- Matt powder coated to a bespoke colour match
- Mirrored back wall
- LED ceiling lighting
- Wooden flooring to match reception area
- Satin stainless steel walls and hand rails

Our passenger lifts are available with a wide range of standard and bespoke choices. Complete your own bespoke design by choosing colours, materials and finishes for all elements including the floors, walls, ceilings, lighting, mirrors, handrails and more.
